

Distribution and conservation of the species of Marmosini (Didelphimorphia, Didelphidae) from Colombia

1 Increased clarity of phylogenetic relationships and taxonomic identity within Marmosini

Marmosini tribe

Monodelphis

Tlacuatzin

Marmosa

Other didelphids

2 Lack of conservation analyses, both at regional and local scales.

Colombia as a model:

1. Highest Marmosini richness
2. Availability of local calibrated human pressure data
